MANAGING & UNDERSTANDING YOUR PET'S WEIGHT

Transforming Lives

feeding the love losing the weight

Over 50% of pets are overweight.¹ Is yours?

pet obesity is a big problem

90% of pet parents with an overweight pet don't realize it²

Spot the signs of weight issues

- | | |
|----------------------------|--------------------------|
| Ribs cannot easily be felt | Slow movement |
| Loss of an obvious waist | Shortness of breath* |
| Collar needs loosening | Sleeping more than usual |
| Difficulty walking | |

What might be affecting my pet's weight?

- | | |
|-----------------|------------------|
| Excess calories | Lack of exercise |
| Breed | Neutering |
| Age | Over-treating |

Managing your pet's weight issues

Overweight and obese pets can be at an increased risk for developing health conditions due to excess weight. Feeding the right food is one simple step you can take to help your pet slim down. Hill's weight management foods support weight loss with nutritional science and help pets maintain a healthy lifestyle.

*This may be a sign of a more serious problem. If you are concerned, please contact your veterinarian.
